War in Balkans.

BUCHAREST IN SIGHT.

Auton Armies in Rapid Advance.

Important Railway Terminus Ninety Miles from the Capital Seized.

London's Situation Viewed with Gravest Misgiving in London.

(BY WIRELESS CABLE AND A. P.)

PARIS, Nov. 29, 12:05 a.m.

—The Rumanian government and diplomatic authorities have left Bucharest and gone to Jassi, according to a Havas dispatch from Bucharest.

Jassi lies about 200 miles west of Bucharest, near the Russian frontier.

LONDON, Nov. 23, 10:22 p.m.—The forces of the central power are in possession—according to German official reports, which hitherto have proved accurate with regard to most events in Rumania—of Arges, an important railway terminus ninety miles from Bucharest and Giurgiu, on the railway forty miles southwest of the town, anxiety as to the fate of Bucharest is greatly increased.

As Marshal von Mackensen's army of Giurgiu shows that his army has advanced thirty miles in three days. Further, a Bulgarian communication says the Bulgars have been crossed near Lom and Vidin, and the town of Vidin, opposite Vidin, captured. Nothing is yet admitted by the

EVENING PAPERS DOUBLE PRICE.

"Penny Dreadful" of Pittsburgh to Cost Two Cents in Future.

(BY A. P. NIGHT WIRE.)

PITTSBURGH (Pa.) Nov. 21.—All afternoon papers in this city announce today that effective December 1 the price of their editions will be doubled and advertisers and others heretofore receiving copies will have to pay the increased rates, 2 cents. The papers are the Chronicle, Telegraph, Evening Leader, Press and Sun. "Owing to the enormous increase in cost of white paper and other materials used in the production of newspapers, it is impossible to produce a newspaper selling at 1 cent," the announcement says.

manumans of these enemy advances, but it is assumed that the Russian Government will not hurry retirement toward the line of the Agresiv River. A danger, however, is that the Russian Government not being quick enough to prevent an attack on their flank by Von Mackensen's forces across the Carpathians, from which point there is rail and direct road communication to Bucharest.

It is possible to doubt that the situation is viewed here with greater misgivings. The question is being frankly asked whether the action of the Russian Government in the Entente's cause has brought strength or weakness, whether Russia has suffered the disadvantage which might have been expected from her, and whether the allies might not have more powerful initiative in attack from the Balkans. Whether the collapse of Rumania is due to any lack of unity in the allies' plans of strategy, or whether the Russian pressure upon Rumania's hasty invasion of Transylvania.

On the other side of the account it has been noted that continued confidence is being displayed in Russian military and political efforts.

Victory for Villa is Hinted At.

Juarez Hears that the Bandits is in Complete Control of Chihuahua City.

Officials now Admit Possibility of Trevino Having Quit State Capital.

(BY A. F. KIMBLE WEEK.)

JUAREZ (Mex.) Nov. 28.—Another day of suspense passed to-day without anything definite being announced as to the fate of the Carranza garrison in Chihuahua city. It has now been six days since the first skirmishing started which opened the siege of the State capital and three days since the telegraph line between this city and Juarez was cut.

Since early today persistent reports have been in circulation here and in El Paso to the effect that Gen. Trevino has been forced to abandon the State capital because its ammunition supply was exhausted. One report stated Gen. Trevino had gone south towards Tlalpacra, near Chihuahua city, where he made his last stand yesterday before retiring farther south. Other reports say his forces became divided, a part going south to join Gen. Murguia's advancing column and he remainder moving north to seek a position near the city.

MAY BE TRUE.

High Carranza officials as well as officers of Gen. Gonzalez's staff admitted that these reports might be true late today, and said it was possible that Gen. Trevino had been forced to withdraw temporarily under the pressure of the situation. The Carranza army arrived with fresh troops and ammunition supplies, and the temporary commander of thearrison here said he expected to hear that Trevino had retired to go to get ammunition from the north and go wait for Murguia's arrival at the mouth of the Rio

National Housewives' League Ap-
peals to President Wilson to
Regulate Country's Food Supply.
Metropolitan Government, at
York on Food-cost Production.

(BY A. F. NIGHT WIRE.)

NEW YORK, Nov. 25.—New York's
fight to reduce the high cost
of living began in earnest today
as a boycott on eggs by thousands
of housewives. This was followed
by a direct appeal by the National
Housewives' League to President
Wilson for the regulation of the
country's food supply and meetings
of Federal, State and city officials
investigating committees, as
well as various civic organizations,
which resolutions were adopted
calling for a speedy reduction of
prices.

Coincidental with the egg boycott
there was a break in the poultry
market, the price of turkeys drop-
ping 4 to 5 cents a pound.

Virtually every branch of the mun-
icipal government was at work to-
day in an endeavor to find a solu-
tion to the food problem. A state-
ment issued by Isaac Feinberg,
director of the board of correc-
tions, said "the present high cost
of living is directly reflected in an
increase in the number of suicides,
due from lack of proper nourish-

ZEPPELINS

WINGED

Two Brought Down by the British.

Axis of the Monster German Air Craft Destroyed Since Last September.

Little Damage Done in England by the Latest Raid from Above.

BY ARTHUR S. DRAPER.

ATLANTIC CABLE AND WIRELESS TELEGRAPH COMPANY'S (CLIPPING SERVICE)

LONDON, Nov. 28.—The twentieth second Zeppelin raid of the year gave the Royal Flying Corps the opportunity to add two more of the giant birds to the list, which now has enfolded a Germany's monsters since the 1st of September.

The fifth and sixth Zeppelins were brought down early this morning under conditions even more thrilling than those existing when the predecessors were destroyed. In the aftermath clear, starry night, the first of the big air cruisers approached the north coast of England and for the first raid in two months was almost midnight when the striking of the engines revealed the presence of a raider over Durham. Immediately the airship was picked up by the British searchlights. As she was held transfixed in the steady beams the anti-aircraft guns began to boom quickly into action. The first shots found the rounded shells began to fall all around the Zeppelin. Spectators saw her hesitate and turn, trying to escape the rain of explosives. The fourth shot definitely found its mark. The nose of the great craft dipped forward at an angle of nearly 45 degrees.

ZEPPELIN PURSUED.

Flighting herself almost instantaneously, the stricken bird "made a dash for it" toward the sea, with the aviator darting around her.

LIST OF AMERICAN SHIPS SUNK SINCE THE WAR BEGAN

THE following American ships have been sunk by belligerents since the outbreak of the war in Europe:

William P. Frye, American sailing ship, sunk January 20, 1915, in the South Atlantic by a German auxiliary cruiser, carrying a cargo of wheat to England. Germany has agreed to pay indemnity for the loss of this ship.

Carib, American cotton ship, sunk in February, 1915, off East Frisian Islands, by contact with a mine.

Evelyn, American cotton ship, sunk in February, 1915, East Frisian Islands, by contact with a mine.

Cushing, American vessel, sunk by German aeroplane which dropped bombs on it April 28, 1915, off North Hind Lightship while bound from New York for Rotterdam.

Gullflight, American steamer, sunk by German submarine by mistake May 1, 1915, off British Isles.

Nebraska, American ship, sunk by mistake by German submarine, May 25, 1915, thirty-five miles West of Fastnet Rock; Germany expressed regret that steamer was struck by mistake.

Leelanaw, American cotton ship, bound from Archangel for Belfast, sunk by German submarine, July 25, 1915, off Orkney Islands for carrying cargo of contraband flax.

Petrolite, American tank ship, attacked but not sunk in Mediterranean, 350 miles West of Alexandria, December 6, 1915, by Austrian submarine; no reparation yet made.

Lanao, American steamer sunk by submarine October 28, 1916.

Columbia, American steamer sunk November 18, 1916 in Mediterranean.

Chemung, American steamer sunk November 28, 1916 by Austrian submarine in Mediterranean.

Coast of Spain.*

(BY ATLANTIC CABLE AND A. P.)

LONDON, Nov. 28.—Lloyd's reports the American steamship Chemung has been sunk. The Chemung sailed from New York on November 1 for Genoa and Naples and stopped at Payal, Azores, November 28. She was owned by the Harby Steamship Company of New York, was built in 1888 at Buffalo and was 327 feet long, of 3042 tons gross.

The crew of the Chemung has been landed at Valencia by the Spanish steamer Gliner, says a Reuter dispatch from Valencia today.

The Chemung was torpedoed near Cabo de Gata, according to the dispatch.

Cabo de Gata, or Cape Gata, is a promontory of Spain on the coast of Andalusia, forming the eastern side of the Gulf of Almeria, an arm of the Mediterranean.

The steamer foudered with the American flag flying, it is added, the captain having formally refused to lower the flag.

The submarine towed the crew to within five miles of the coast, the Valencia advises, and then abandoned them. At the end of the day they were picked up by the Gliner.

SOUTHERN CALIFORNIA. Mexican government leased uninhabited islands off coast of Lower California to amusement capitalists.

High school students engaged in football rally in Los Angeles. Interest in the coming season.

Sale of \$19,000 worth of

Vidin, a short distance from the Serbian border, now is in the hands of the Bulgarians.

The capture of points in this region opposite Vidin, Lom-Palanka and Rahovo by the Bulgarians would force the Rumanian troops from the Orsova and Turcu-Severin sectors who were reported several days ago to be in retreat.

The capture of Giurgiu brings the line of Field Marshal Von Mackensen to within thirty-seven miles of Bucharest on the Danube, while the capture of Curila-de-Arago, eighty miles west of the capital, evidently has cut off the railroad sector for the Rumanians and given the invaders the railroad to the important town of Pitesti, the junction of the line running from Campulung to Bucharest.

persons and other foreigners, had been in the city for some time. Gen. Carlos Ostua had arrived with the remnants of his cavalry and had been ordered to remain in the city. From various sources today, but could not be verified by telegraph, it was learned that Gen. Ostua was acting commander of the military headquarters.

Gen. Gonzales, who left Jures early today with a force men, machine guns and a car of supplies, was expected to return tomorrow morning. He left to make scouting trip and it possible to return in a few days. He was sent to the assistance of Gen. Irujo. It was announced here today.

AN ADMISSION.

For the first time since the report of the military circumstances official here admitted today the possibility that Gen. Trevino had been killed in the fighting with the Indians because of a shortage of ammunition.

The official declared that a messenger to Baus, if made, was for temporary military reasons only, and that he was sent to the northward as soon as Murguia reached the scene of action. Carlos Trevino was killed without doubt November 27 as proof that

When a mixed passenger and freight train was about to leave here today, it was loaded with a large number of American passengers and quantity of supplies for Gen. Pershing's army. It was stopped by a protesting crowd of Chinese until he could communicate with Gen. Gonsales. At 11 o'clock the train was allowed to leave. Officials were told to annul the ban in order of Gen. Gonsales. It was the military wishes to have the equipment and supplies sent and it should be needed to send different troops south to Sams.

ARMY REEF FORCE.
According to the Chinese Charge the headquarters, Gen. Gonsales have 2500 men there when the Chinese troops in Northern Chihuahua have been ordered to leave troops in the area.

Gonzales was elected to arrest Saus at noon and to lead the men to the nearest city at once. He was at Laguna station, twenty-nine miles north of Saus, at five o'clock this morning, according to the report of Gen. Gove, the line which is in operation to that station.

The value of approximately \$600 is said to have been stationed at Saus to operate against the robandos of Villa bandits. With the aid of Gen. Gove, the men in thearrison here and the forces in the Western Chihuahua and the divisions between Juarez and Saus. Juarez commander will have a strength brigade of approximately 1000, with machine guns, at least 1000 men, according to Carranza officials.

A troop train arrived on the Rio Grande Northwestern Railroad from

As the Granda late last night with Carranza troops stationed there, heard. There were not more than 100 of these troops, it was said. There is no unusual excitement in Juarez today, and no troop movements after the departure of General's appeal train. Rumors here and in El Paso of credit forces appearing at Samalá, a near Juarez, and at other

hold a national funeral for Verhasen and that his body be placed in the Pantheon, to be held until Belgium is freed.

Emile Verhasen was born in May, 1855, at St. Amand near Antwerp. He was educated at the University of Louvain, and after graduation was admitted to the bar, but later gave up law to devote his time to literature. His poems and one of his three dramas written have been translated into English.

travellers still held her on her first course. Not three minutes after the explosion, the ship was struck by a mighty blow from another shell. It was a mortal blow, and the ship, with a gasp, enthrallied by the spectacle, a glow appeared, like the lighted candles of a church, and the entire structure burst into a mass of flame, lighting up the countenance of the sea. The ship plunged, and over and over, into sea, and was swallowed up with a roar, and a great outlook-looker nearly mad with joy. "Even more spectacular," says the correspondent, "than the explosion of the coast-guard ship appeared off the coast of Norway, when the sailing vessel, which was bound for the north, was completely destroyed, and emptied her cargo of bombs on the coast, which lay in view." The explosion was the first distinguished when news of the raid-raid was received by the news and the district.

BOMBARDMENT.

After reaching a certain point the ship turned about and headed for the coast. The ship was seen on the Norfolk coast she ran into a mass of British planes and a

below the right and left, from above below, the raider made her first attack. Several shots were taken from the raider, but the ship had slowed up noticeably. It was fine time for the British to escape the British flares that were on every side of her and she was steadily to strike the raider.

Finally the Zeppelin rose to a height, shook off most of the bombs and dived into the sea. The British ships were not the only ones that she had escaped. But the naval planes—two whole fleets—were waiting for her. They were on the coast, and when she was only nine miles out and to all those ships from the coast, she captured her and brought her in a battle fought from dawn till dark at the same time. From the plane's distance, from the

sides of her, from the long-range batteries on the coast and the armed trawlers that prowled the waters below her the beleaguered ship was peppered with and shell.

BATTLE ENDS

The sun was just peering over the horizon when the battle came to an end. In the midst of thousands who had seen the giant craft was one of the grim mist of war. She seemed to burst into flame all over her great body like a torch, plunging beneath the waves before she succumbed. The final blow had been struck, turning leisurely, in graceful curves, to the coast towns from where they had been launched. The raider, the British armaments the subjects of an extraordinary spectacle of the ships and facilities of the British navy.

with their sirens, the townfolk of the heroes and carried them over-high through the streets, singing wildly.

The news spread in London like fire and thousands were prepared to take the afternoon off and cheer the raided areas when Lore itself was treated to one of its first thrills in the war—its first night air raid. Shortly before

Continued on Second Page.)

Of the crew of the Newcastle twenty-seven men were killed and forty-seven wounded.

The total losses to the British navy with this loss, as far as can be ascertained, have reached 121 ships of 547,550 tons, not counting auxiliary cruisers and auxiliary ships.

The English patrol ship sunk during the raid was the force on the night of November 27 was the steam trawler Narval, which was engaged

PRO PATRIA UNDAGEMED.
[BY A. F. DAY WIRE.]

NORTH SIDNEY (C. B.) Nov. 28.
The steamer Pro Patria, which was stranded at Flat Point, East, arrived off this point today, apparently undamaged. It was at first reported that the steamer was the wreck of the vessel which is being called for help in radiograms picked up by shore stations. No word has been received here of such a vessel.

NEW YORK, Nov. 28.—The Harbly Steamship Company, which has representatives here of the Harbly Steamship Company, owner of the Chemung, reported sunk today, said the vessel carried general cargo only, no munitions or arms were on the Italian government being on board.

The ship was commanded by Capt. John L. Duffy and carried a crew of thirty-five men.

No word of the loss had been received here.

MINING REPORT.

AND A. F.]

the mine sweeping service. Her new belonged to the Royal Naval service."

The last report of the British tugster Newcastle was in September, 1915, when she was reported leaving Genoa, Peru, for Guayaquil, Ecuador.

She was a vessel of 4800 tons and was built in 1903. Her complement was 27. She was 130 feet long and carried two 6-inch and a 4-inch gun, four 3-pounders and two torpedo tubes.

RENCH AND CHINESE

CLASH IN FACTORY.

(BY WIRELESS AND A. P.)
BERLIN, Nov. 28 (Via Sayville).
According to the Swiss newspaper
the Zuercher Zeitung, as quoted by
the Overseas News Agency, French
workmen and Chinese employed in
French ammunition factories at
Neuchâtel have clashed, one Chinese
workman being killed and several
other workmen wounded. The bar-
acks of the Chinese, it is declared,
now are guarded by troops.

BRITISH CRUISER SUNK, SAYS BERLIN REPORT

[BY WIRELESS AND A. P.]

BERLIN, Nov. 28 (via Svalbya.)—The British cruiser Newcastle is reported to have been sunk at the entrance to the Firth of Forth, Scotland, November 15, by being in contact with a mine, according to the Overseas News Agency.

It is reported from Rotterdam, "that the news agency, "that the British cruiser Newcastle on November 15 in the North Sea struck a mine and sank at the entrance to the Firth of Forth while trying to reach a home port. The Newcastle at the time of the disaster was accompanied by two other cruisers. The crew of the Newcastle—twenty-seven men were killed and forty-nine wounded.

The total losses to the British navy with this loss, as far as can be ascertained, have reached 121 of 687,931 tons, not counting military cruisers and auxiliary ships.

The English patrol ship sunk during the raid of sea forces the night of November 27 was the steam cruiser Narval, which was engaged in the mine sweeping service. Her crew belonged to the Royal Navy Service."

The last report of the British cruiser Newcastle was in September, 1915, when she was reported leaving Callao, Peru, for Guayaquil, Ecuador.

She was a vessel of 4800 tons and was built in 1909. Her complement was 374 men. She was 430 feet long and carried two 6-inch and ten 4-inch guns, four 3-pounder and two torpedo tubes.

FRENCH AND CHINESE CLASH IN FACTORY

[BY WIRELESS AND A. P.]

BERLIN, Nov. 28 (via Svalbya.)—According to the Swiss newspaper, Neus Züricher Zeitung, as quoted by the Overseas News Agency, French workmen and Chinese employed in the French ammunition factories at Creusot have clashed, one Chinese workman being killed and several other workmen wounded. The barracks of the Chinese, it is declared, now are guarded by troops.

the munitions of cargo owned by the Italian government being on board. The ship was commanded by Capt. John L. Duffy and carried a crew of thirty-five men.

No word of the loss had been received up to 2 p.m., by the representatives of the owners, from the agents at Genoa, where the vessel was due to arrive today.

The crew list of the *Chenung* filed with customs officers here shows that only ten of the men on board, including the captain, were Americans, the others being Greeks, Bulgarians, Spaniards and Mexicans.

The cargo list of the ship filed on the date of sailing shows it consisted mainly of iron and steel products, chemicals, dried fish, wooden staves, etc. Included in the cargo were 5146 pieces of copper and 299 pieces of cotton.

The *Chenung* was a sister ship of the *Oreg* and both were employed in the Great Lakes trade at one time. The ship was fitted with triple expansion engines and were the forerunners of this type of vessel, though they were built many years ago. In the latter eighties, they traded between Chicago and Buffalo, making about thirty knots an hour, which then was considered an setting a record for speed.

TRAIN COLLISION.
[AT A P. PAT. WIRE.]

MIAMI, Fla., Nov. 28.—Five persons were injured today at a collision between a passenger train and a freight train, bound from Oklahoma City to Miami, at a point about twenty miles south of here.

A passenger was among the injured,

Wilson to Proceed in Matter
with Great Caution.

Situation is Fully Discussed
at Cabinet Meeting.

Germany Defends Action as
According to the Law.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Nov. 28.—New
representations are about to
be made to the German government by
the United States concerning the
deportation of Belgian civilians for
labor in Germany. What form they
shall take has not been determined,
but it became known tonight that
the administration is seriously ex-
ercised over the matter and preparing
for its next step with great delibera-
tion, hoping to make it effective
without straining the relations be-
tween the two countries.

American Charge Grew at Berlin
recently took up this question in-
formally with the German Foreign
Office, and at the State Department's
direction said that a most unfavor-
able impression was being created
in neutral countries, particularly the
United States. His effort was un-
availing, however. The Foreign Of-
fice, in a note now on its way to
Washington, replied that deporta-
tion of the Belgians was a military
necessity, and was being carried out
in accordance with international law
governing the treatment of popu-
lations in conquered territory.

GERARD CONSULTED.
The charge's preliminary report,
the latest appeal for aid from the
Belgian government, and other in-
formation in the hands of the State
Department, were discussed at to-
day's Cabinet meeting, and Secretary
Lansing remained with the cabinet
for nearly a half-hour after the
other members left. Ambassador
Gerard, however, did not see the
President, but at Mr. Wilson's re-
quest deferred his plan to leave
for New York and return here to-
morrow. Regardless of whether it
is decided to instruct Charge Grew
to further immediately in the Bel-
gian matter, the Ambassador's per-
sonal views, as well as concern-
ing the latest developments in sub-
marine warfare.

HUMANITY ONLY BASIS.
State Department officials admit
that the government is proceeding
with the greatest difficulty in en-
deavoring to help the unfortunate
Belgians. They say that virtually
the only basis for representation is
the broad ground of humanity,
and that it is almost impossible to
establish an incontrovertible state-
ment of the facts in the case.

The refusal of the British gov-
ernment to grant safe passage to
Count Tarnowski, the new Austro-
Hungarian Ambassador to the United
States, was discussed at to-
day's Cabinet meeting, and dis-
satisfaction was generally expressed.
They also may be taken by the
United States as an indication that
full consideration has been given
the British note on the subject.

KAISER GIVES WILSON
BOOKS, POPE A BIBLE.

(BY ATLANTIC CABLE AND A. P.)
GENEVA (Switzerland), Nov. 28
(via London, 2:11 p.m.).—Emperor
William will send to President Wil-
son as a Christmas present a de-
luxe set of American authors, specially
prepared, printed and bound in
royal printing works in Berlin, ac-
cording to the Budapest newspaper
as Est. The German submarine
policy will carry the gift to the United
States on her next trip across the
Atlantic.

Emperor William's Christmas gift
to Pope Benedict will be a Bible
magnificently illuminated and bound.

Reprinted.

THOUSANDS OF FRENCH
RETURNED TO HOMES.

(BY WIRELESS AND A. P.)
BERLIN, Nov. 28 (via Sayville).—
The following item was given out
for publication today by the
Overseas News Agency:

"According to promises given to
the inhabitants of Lille and other
towns in occupied territories in
France, the following number of
persons have been transported back
there:

"Up to August 1, 1918, 1922 persons,
who were either incapable of
working or whose removal from
their homes had proved especially
severe.

"From the beginning of October
until the middle of November, 4671
persons, mostly women, whose work
was no longer required."

"The competent military author-
ties have received an order to trans-
port the remainder of the persons
year, all persons with the exception
of those who wish to stay in their
residence. Since it is most prob-
able that the French govern-
ment will assert that these measures
were taken in consequence of its
protest and the intervention of neu-
tral governments, it is expressly
stated that neither unfounded pro-
tests nor the intervention of neu-
tral governments have influenced the
decision of the German military
authorities. The transport back
home of these people is in ac-
cording with the promises given
them at the time of their removal."

THE LOS ANGELES
ADVERTISING SCORE.

In printing the advertising records of all the daily and Sunday
newspapers in Los Angeles every day The Times does not attempt
to make or decide its readers by using figures that concern only
certain kinds of advertising. It holds publishes the figures of all
classes of advertising printed in each local newspaper.

The juggling of figures is left to those newspapers that dare not
tell the whole truth and that have not the courage or fairness to
make honest comparisons.

For the week ending Sunday, November 28, the Los Angeles
newspapers published the following number of lines of advertising
(300 space lines make one column):

First—Los Angeles Times 182,826
Second morning paper 182,826
Second evening paper 182,826
Third evening paper 182,826

**BRITAIN ORDERS
AMERICAN DEPORTED.**

(BY ATLANTIC CABLE AND A. P.)
LONDON, Nov. 28, 4:20 p.m.—Dr.
H. Porin Jones, who claims to em-
body a school of Indian philosophy
and who is said to have homes in
Southern California and Florida, is
held here on a deportation order,
charged with maintaining a disor-
derly house. Dr. Jones was first
arrested for violation of the Defense
of the Realm Act, upon the allegation
he had received information of mil-
itary value from his followers, but
this charge apparently was with-
drawn and another alleging infrac-
tion of the domestic law was sub-
stituted.

The American embassy was be-
lieved today by Jones's adherents,
who assert that he is a widely-known
American philosopher, never sought
the military information voluntarily
given by one of his students.

Explanation.
WHY VON BISSING
IS IN BELGIUM.

FURTHER GERMAN INTERESTS
IN HIS MAIN OBJECT.

Declares He is not There to
Martyrize Population Nor to
Meet Out Punishment, but to
Serve Emperor and Fatherland
to Best Advantage.

(BY ATLANTIC CABLE AND A. P.)
AMSTERDAM (via London), Nov.
28.—"I am not in Belgium to
martyrize the population, nor mete
out punishment, but only to further
the interests of Germany in the most
comprehensive way," says Gen. Bar-
on von Bissing, Military Governor of
Belgium, in an interview published
in the Deutscher Tagblatt. He
adds:

"We are doing this according to
our best judgment and conscience
and I think it a great achievement
that this country, just behind the
lines, has been kept free from re-
volt. I am an old soldier and should
not like to use arms against this
unarmed population.

"I consider that I am serving the
Emperor and the fatherland to the
best advantage when I cause the
least possible harm to the Belgian
people and the fewest possible Ger-
mans to be withdrawn from our
front lines to watch over Belgium."

THRONES PAY TRIBUTE
TO FRANCIS JOSEPH.

(BY ATLANTIC CABLE AND A. P.)
VIENNA (via London), Nov. 28,
3:50 p.m.—The doors of the black-
draped Hofburg chapel, where rests
the silver coffin with the body of the
late Emperor Francis Joseph, were
opened at 8 o'clock this morning.

The waiting throngs of people then
began to file through to pay their
last respects to the dead Emperor.
All classes were represented, rich
and poor, gentry and workmen,
and the crowd was so dense that it
was impossible to take a single
step in passing before the unopened
coffin.

WARNS DENMARK
AGAINST GERMAN COAL.

(BY WIRELESS AND A. P.)
BERLIN, Nov. 28 (via Sayville).—
The Overseas News Agency quotes
the Danish newspaper Ekstra Bladet
of Copenhagen as announcing that
the British Minister at Copenhagen
has sent a circular letter to Danish
coal traders warning them to
deal in German coal under penalty
of being refused supplies of British
coal.

In objecting to this newspaper,
according to the agency, declared the
English authorities were over-
reaching themselves. Danish
houses, if they received no British
coal, would be forced to deal in Ger-
man coal, and the British Minister
to Germany in compensation.

APPOINTED FIELD MARSHAL.
(BY WIRELESS AND A. P.)
BERLIN, Nov. 28 (via Sayville).—
Col.-Gen. Conrad von Hotzendorf,
former Chief of the General Staff
of the Austrian army, has been pro-
moted to be field marshal, says the
Overseas News Agency.

Reprinted.

THOUSANDS OF FRENCH
RETURNED TO HOMES.

(BY WIRELESS AND A. P.)
BERLIN, Nov. 28 (via Sayville).—
The following item was given out
for publication today by the
Overseas News Agency:

"According to promises given to
the inhabitants of Lille and other
towns in occupied territories in
France, the following number of
persons have been transported back
there:

"Up to August 1, 1918, 1922 persons,
who were either incapable of
working or whose removal from
their homes had proved especially
severe.

"From the beginning of October
until the middle of November, 4671
persons, mostly women, whose work
was no longer required."

"The competent military author-
ties have received an order to trans-
port the remainder of the persons
year, all persons with the exception
of those who wish to stay in their
residence. Since it is most prob-
able that the French govern-
ment will assert that these measures
were taken in consequence of its
protest and the intervention of neu-
tral governments, it is expressly
stated that neither unfounded pro-
tests nor the intervention of neu-
tral governments have influenced the
decision of the German military
authorities. The transport back
home of these people is in ac-
cording with the promises given
them at the time of their removal."

THE LOS ANGELES
ADVERTISING SCORE.

In printing the advertising records of all the daily and Sunday
newspapers in Los Angeles every day The Times does not attempt
to make or decide its readers by using figures that concern only
certain kinds of advertising. It holds publishes the figures of all
classes of advertising printed in each local newspaper.

The juggling of figures is left to those newspapers that dare not
tell the whole truth and that have not the courage or fairness to
make honest comparisons.

For the week ending Sunday, November 28, the Los Angeles
newspapers published the following number of lines of advertising
(300 space lines make one column):

**MORGAN TO DISREGARD
RESERVE BOARD WARNING**

(BY A. P. DAY WIRE.)
NEW YORK, Nov. 28.—The pro-
posed offering of a series of
short term treasury notes by J.
P. Morgan & Co. for the British and
French governments, it was autho-
ritatively stated today, will be made
regardless of the warning issued by
the Federal Reserve Board. The
notes, ranging from thirty days to
six months, will be issued in limited
amounts in response to a widespread
demand from banks and investors
and will not be renewable.

It was known today that the action
was discussed by the board with the
Federal Reserve Board, but the latter
declined to say to what extent, if
at all, future international under-
takings may be affected by the action
of the reserve board.

As it was appreciated the action
might be misconstrued, the board's
statement was written to state that "the board dis-
claims any intention of discussing
the financial stability of any nation, but
wishes it understood that it seeks to
deal only with the general principles
which affect all alike."

BANKERS RECEIVE WORD.
(BY A. P. DAY WIRE.)
WASHINGTON, Nov. 28.—Bankers
today received a warning from the
Federal Reserve Board, but since the
investing in foreign governments' treas-
ury bills for long terms. A state-
ment issued by the board was in-
terpreted informally by officials

as referring to the recent pro-
posals of J. P. Morgan & Co. British
financial representatives, that
American bankers make loans on
British treasury bills of indefinite to-
tal issue secured by gold reserves
held in Ottawa. These loans would
be for ninety days, with privilege of
five renewals for ninety-day periods.
The board also told bankers that
further extensive gold imports will
be dangerous only if followed by
great loan expansion and inflation.

It became known today that the action
was discussed by the board with the
Federal Reserve Board, but the latter
declined to say to what extent, if
at all, future international under-
takings may be affected by the action
of the reserve board.

HERE IS ONE TO SHOOT AT.

Denver Paper Hears Champion Snake Story on Innocent Los Angeles Man.

A Denver paper of the date of last Thursday contains what is probably the champion snake story of the decade—and hangs it on Los Angeles.

Herman Hertz, who, according to the paper, is a resident of Los Angeles, but whose name does not appear in the city directory, realized a fortune as the result of an encounter with a six-foot rattler.

Mr. Hertz, it appears, met the snake on the Arizona desert near Wickenburg. Mr. Hertz outdistanced the rattler until brought to a halt by a deep chasm that yawned in front of him. Meantime the fangs of the rattler yawned close behind.

With rare presence of mind Herman halted on the brink of the hole and executed a masterly move to the left flank. This strategic maneuver disconcerted the reptile, which slid over the brink to its death.

Herman, so the tale runs, discovered a rich vanadium deposit when he peered over the edge to watch the dying struggle of the rattler, secured an option on the property for a small sum and has been offered \$100,000 for the option by a Denver syndicate.

Maybe so.

moved to the house of a friend in Hollywood.

Street car men who had long been patrons of the watercress gatherer last night began taking up a subscription for the purpose of burying him.

One of the members of the crew of the car that ran Montewell down stated that the old fellow had ridden home with him for several years. He said that almost every motorman who has had a Hollywood run in recent years knew old "Watercress" and his dog. The dog was perhaps the only member of his species who had the free run of the city.

The men at the car barn will try to adopt the animal and give it a home in the barn.

The funeral of Montewell will be held tomorrow. The coroner will today probably sign a certificate of accidental death.

Christmas Present.

HALF-MILLION MELON.

Union Oil Company and the United Petroleum Company Directors

Declare Dollar-and-half per Share Dividend for Holiday Season.

At a meeting of the board of directors of the Union Oil Company of California and of the United Petroleum Company, held at Orem yesterday, a dividend of \$1.50 per share was declared, payable December 20 to stockholders of record in the companies named on December 6. STORMS MAN'S LAST REDOUBT.

Wife Made Official Family Head Over Husband.

Uncle Sam Upsets Homestead Law for Her Benefit.

Awards Her Hard-won Home, Spouse Aiding Contest.

New legal ground is broken and a remarkable and far-reaching social precedent established in the official ruling of the General Land Office at Washington, announced yesterday, in the Clett homestead contest.

For the first time in the history of jurisprudence, so far as known, a wife has sought official governmental recognition as the head of the family over a living husband and won. The decision, which affirms that of the local land officials, upsets in the interests of justice the strict letter and common interpretation of the homestead law and is likely to have a large influence on the homesteading of land by married women in this and other States in future.

The decision awards to Mrs. Viola G. Clett the 120-acre homestead entry known as the Grater ranch, near Topanga, following a long and bitterly-fought contest.

Mrs. Clett, who is the mother of three children, two of which are mere tots, is a woman of grit and intelligence, and in her testimony convinced her hearers that she was able to care for herself, and proved that she had cared for her household, and made her home the center of social and religious activities of the little mountain community.

HUSBAND OPPOSING?

The ranch is a valuable piece of property in the Santa Monica mountains and the decision is the result of a contest made by Edward Raney, Mrs. Clett's son-in-law.

Mrs. Clett filed on the land September 1, 1914. Raney filed his contest October 5, 1915, basing his claim on the fact that Mrs. Clett was not the head of a family by reason of the fact that her husband is alive and she was therefore not entitled to a homestead entry.

It was alleged that Raney was given a tip by the woman's own husband that he could beat Mrs. Clett on the contest for the land, though no evidence was introduced at the hearing to prove this.

The first hearing, which was held in May, before the local Register and Receiver, brought out some interesting testimony. In proving her right to be considered the head of the family Mrs. Clett told of her work at the ranch, which she conducted as a summer resort. She told how she cooked for guests, farmed the ranch, cared for the alfalfa and the stock and did all the work that should have devolved upon the husband. She also described how she was forced to look after her husband, as well as her two small children, Iris and Alva.

TWICE WED.

The Cletts were married July 13, 1895; they were divorced in 1910, remarried in 1911. Since the case has been before the General Land Office for final decision, the Superior Court has granted Mrs. Clett her second divorce.

Mrs. Clett was a Virginia girl. Her home was near Manassas Junction and her husband, go back to the year 1920, when they came to Virginia from England.

Unexpected.

DIVORCE BY CHANCE.

Woman, Charging Desertion, is on Verge of Losing Out When an Attorney, in a Court Upon Another Case, Gives Convincing Facts.

Mrs. Louise E. Crocker was unexpectedly aided yesterday in winning a decree of divorce from Edwin R. Crocker, founder of the Domestic Utilities Company, by Attorney Robert L. Hubbard, attending court in another case. Mrs. Crocker alleged that her husband deserted her February 3, 1915, but her husband's abandonment was not clear. It appeared as though she would be denied a decree.

Then it was that Attorney Hubbard was called by Judge Wood and took the stand. He stated he represented a client who had an action in the Federal Court against Mr. Crocker. Mr. Crocker had been served with the papers after a chase that covered several States. He was put under \$20,000 bonds, and it was said left the State. Mrs. Crocker, who was made a director of the Domestic Utilities Company, was also placed under bonds.

As the time of Mr. Crocker's departure from the State as shown by the Federal case coincided with the time named by Mrs. Crocker, she was granted the decree.

PLAYERS APPEAL.

Venice Musicians Take Case to the Higher Court.

C. Q. Wiener and H. Nessenheimer yesterday filed an appeal from the decision of Superior Judge McCormick, who had affirmed the conviction before Recorder Rennie at Venice for the violation of a city ordinance.

Wiener is a snare drummer and Nessenheimer a cello player engaged by an attraction at the beach town. The Venice Board of Trustees recently adopted an ordinance requiring permits for playing musical instruments outside of buildings, and to test the law the two defendants were fined \$10, with ten-day sentences. The writ of habeas corpus secured yesterday serves as a stay of execution.

Sets New High-water Mark for Progressive Feminism.

Mrs. Viola G. Clett, head of the Clett family.

She has just been officially declared so by the United States government, although her husband is living. The ruling was made in connection with the long-fought Clett land claim. The children are Iris (sitting on Mrs. Clett's lap) and Alva.

Question.

CITY VS. COUNTY.

Charges of Prison Investigator of Gambling in Jail Sites up Inquiry and It Develops She was Probably After Cline's Hotel.

Not a little stir was created yesterday by the report in the speech of Miss Faith Chevallier, made before the Woman's City Club Monday, in which she was understood by many of her hearers to make the direct charge that the City Jail is the only legalized gambling "joint" in the State. At his request Chief of Police Butler was the recipient of exhaustive reports from Jailer Shand, Public Defender Pope, Mrs. J. A. Barton, probation officer, Mrs. Lewis R. Works, president of the club, and others, defending the good name of the city.

Although Miss Chevallier's manuscript is somewhat obscure on the point, it appears probable that she had been connected with the jail in the last specific reference to the City Jail. The obvious inference is drawn that she was not connected in position to know most about conditions in the city prison. The speaker herself, a national investigator of prisons, could not be reached last night.

Developments.

TWO SUSPECTS FREED.

Young Men Arrested in Connection with Milligan Murder Cleared by Police Investigation. Hidden Sensation is Broadly Hinted.

Joseph McCann and James Vierra, the young men arrested as suspects in connection with the murder of Drew B. Milligan Sunday night, were ordered released yesterday by Lieut. of Detective Home. Investigation showed they were not connected with the crime.

A startling and unexpected clew has been received by Lieut. Home, and if it develops it may make the Milligan murder one of the most sensational ever known here. The police are unable to divulge the nature of the clew, but six additional detectives have been assigned to the case.

A coroner's jury yesterday found that Mr. Milligan came to his death from a gunshot wound inflicted by unknown parties.

Mrs. Emma Wellan, the woman who was with Mr. Milligan at the time of the murder, is still prostrated from shock.

Mrs. Viola G. Clett, head of the Clett family. She has just been officially declared so by the United States government, although her husband is living. The ruling was made in connection with the long-fought Clett land claim. The children are Iris (sitting on Mrs. Clett's lap) and Alva.

At his request Chief of Police Butler was the recipient of exhaustive reports from Jailer Shand, Public Defender Pope, Mrs. J. A. Barton, probation officer, Mrs. Lewis R. Works, president of the club, and others, defending the good name of the city.

Although Miss Chevallier's manuscript is somewhat obscure on the point, it appears probable that she had been connected with the jail in the last specific reference to the City Jail. The obvious inference is drawn that she was not connected in position to know most about conditions in the city prison. The speaker herself, a national investigator of prisons, could not be reached last night.

Developments.

TWO SUSPECTS FREED.

Young Men Arrested in Connection with Milligan Murder Cleared by Police Investigation. Hidden Sensation is Broadly Hinted.

Joseph McCann and James Vierra, the young men arrested as suspects in connection with the murder of Drew B. Milligan Sunday night, were ordered released yesterday by Lieut. of Detective Home. Investigation showed they were not connected with the crime.

A startling and unexpected clew has been received by Lieut. Home, and if it develops it may make the Milligan murder one of the most sensational ever known here. The police are unable to divulge the nature of the clew, but six additional detectives have been assigned to the case.

A coroner's jury yesterday found that Mr. Milligan came to his death from a gunshot wound inflicted by unknown parties.

Mrs. Emma Wellan, the woman who was with Mr. Milligan at the time of the murder, is still prostrated from shock.

The historic Burbank Theater will close its doors following next week's

performance. This news will come as a shock to the many patrons of the house who have followed its fortunes during the past several sea-

"The Rosary" will probably be the closing bill. Frank Darien, who is a

big favorite in this city, will have the leading role.

Superba.

A fearful and wonderful thing is

A fearful and wonderful thing to screen law, as again demonstrated this week at the Superba. A man is elected to the United States Senate under an assumed name. This situation, says a certain recent publi-

tion would certainly present problems to his constituents who were in on the secret. This business happens in "The Price of Fame," in which Marc McDermott is starred

The story centers around a smooth scamp brother who dies through an accident, after having permitted his twin brother, who looks precisely

like him and who owns all the brains of the family, to impersonate him. Marc McDermott's acting is intelligent and convincing. Mary Maurice as the sweetheart has a pleasing

More queer law. This time in

the Children Pay, at Chinese Broadway, in which Lillian Gish is starring this week. In this case a minor girl is appointed by the court as guardian of her younger sister.

also she is permitted to marry without the consent of her parents, both of whom are present in court, but whose permission is not asked. Otherwise "The Children Pay" is a log-

cal, human and appealing little story, though dragged out tiresomely in some scenes. The evils of divorce as the same affect the children are shown in an appealing way.

particularly where the two sisters are separated by the order of the court, and where they suffer, as all sensitive children must, at the scandal they overhear concerning their

The picture is principally notable for introducing Lillian Gish in a comedy role as a tomboy and "inventress" who "licks" a youth twice

her size, and invents a clothes wringer and a tiny automobile—Millicent No. 1, Model 1915."

and it is very pleasing to view the young lady whom we have been accustomed to see weeping, playing prankish part.

PEN PINTS
BY THE TAFF.

Now watch Congress enact a law placing first, second and third prize postmasters under the civil service law.

Norway has lost one-seventh of her shipping during the great war and more than that proportion of her tonnage.

American bankers are viewing the influx of gold into this country with much concern, but a little thing like that never worries Billy Sunday.

"New Giants in Wall Street," a current headline. And so many people imagined that President Wilson had wiped out Wall Street.

There are a lot of folks in the world who will refuse to be beaten by the high cost of living. They will be beaten by the high cost of living.

The average man is a good deal like a machine that has been run to the limit. He is hard to keep in pair. Like the clock he is about ready to run down.

Here is a pointer that it might well be in your hat: The Republican nominee for President will come from some State west of the Mississippi River.

It has been figured out that it costs less to live in Los Angeles than it does in Chicago. And there are other advantages. If anyone should care to inquire.

The pink boll worm, the most destructive cotton pest in Northern Mexico, has put in an appearance. It may account for the loss of the troops along the border line.

In an old copy of a book entitled "A Manual for Young Ladies," a statement is made that they should always manage to keep their hands concealed. Mercy me, how the times have changed!

It has been figured out that a dollar has lost 75 per cent. of its purchasing power. At the present time, a dollar is worth only 25 cents.

President Wilson says he is a favorer of allowing the people of Mexico to work out their own salvation. A fine theory, but he doesn't extend the idea to the people of Santo Domingo!

What would become of the churches in this land if it were not for the women? Without them, the great majority of the churches would be compelled to close.

It is announced that Louis will soon have an increased share of the market. Only the day will tell the limit. More hard luck to the folks who insist that it is not good form to eat a square meal.

The question now is: Which is the woman's elbow or a man's knee? The query is given the thoughtless Americans who have not quite understood the needs of the market.

There are drawbacks to the prosperity. The Pennsylvania Railroad system reports earnings for October; but the loss is the true operating expense, a still greater increase in the result that interests the individual.

But few of our Presidents have any experience in diplomatic matters previous to their election. Now Wilson had none, but he was a success in the same office in March, 1913.

There are drawbacks to the prosperity. The Pennsylvania Railroad system reports earnings for October; but the loss is the true operating expense, a still greater increase in the result that interests the individual.

POVERTY LANE.
The day of thanksgiving is my friend. And here is a chance for the Lord: Matters but little the you spend. When the giver gives thanks, it can afford. The needy are with us, and the poor is high: And a pittance will leave the hunger and pain; And here's opportunity—just pass by— Just make a short journey to Poverty Lane.

You're prepared for the best, that there's no doubt; You've prospered amazingly, and you're about; You're cause to be thankful, your family about; And your household rejoices, with mirth and good cheer; But that is not true of the poor, that you find. Where want often comes, and again. So look up your brother, and don't mind. Just pause for a moment in Poverty Lane.

There are many in need, street of the poor; And you never meet one, nevertheless. They are all of them here, ask little more. Than the crumbs from your table, to relieve their distress. And this day of thanksgiving, mean much to you. A joy in well-doing, to explain of your house. If you take of the poor, that leads to the heart. LESTER J. JONES.

only twelve cars left after Durant and Boiden had been excused. It was not necessary for the stocky Duesenberg driver to make the circuit.

GREEN CHAMP.
Yesterday's practice, in addition to developing Rickenbacher's wild side into the turns and along the stretches, saw George Buane and "Bill" Weightman tearing off qualifying laps in easy fashion. The Greek champion was particularly impressive in his work. He took the turns without sliding, and seemed to have plenty in reserve. Weightman made a wild swerve when he hit the lower turn at ninety miles an hour and lost some time straightening out to avoid hitting the rail.

Perry in his little blue special job turned some fast laps, but seemed content to take it easy when the official watch was held on him. The beauty of the Perry style of race is that he can keep on going without many stops for tires, where the bigger boys will have to do a lot of fast pit work. Billy Taylor, who has been nominated to drive the Hornum Special, also was easy on his car, as the new bearings recently installed were not ground in enough to allow of maximum speed.

Everything is set for the big race. The drivers have all qualified and been allotted their numbers. No practice will be allowed today except on special permits, as the speedway management does not care to take chances on having its field of contenders spoiled by a last-minute accident.

RELIEF DRIVER.
Wilbur D'Alene put pep into the practice yesterday by taking Toft's Omar car around the circuit in some fast laps. Some of the spectators caught him shading forty-eight seconds, and there is a possible chance for him to appear in the big Thanksgiving Day event as a relief pilot.

Speed enthusiasts from all over the Southland will be on the job bright and early Thursday morning to attend the banner racing event of the western season.

For seats have been coming in from San Diego, Bakersfield, and even San Francisco.

FORMER HARVARD GRID STAR KILLED.
NEWARK (N. J.) Nov. 28.—The body of Stanley B. Penneck, star guard of the 1914 Harvard football team, killed yesterday in an explosion at the plant of the Aromatic Chemical Company, of which he was one of the partners, was claimed here today by his father, Penneck's identity as the football man was not learned here until today.

MILLER LOSES TO KETCHELL.

Fight to Exhaustion Every Round of Four.

Fans Become Excited and Shout Advice.

Most of the Bouts are of Short Order Variety.

BY WARDE POWLER.

Little Eddie Miller went the way they all go, last night in Jack Doyle's Vernon arena. Young Ketchell, fighting like a demon, won the decision after a swarming match which brought the entire house to the benches.

Miller delivered a same exhibition and was probably the stronger at the finish, but he had taken too many blows during the four rounds.

The scrap started out with Ketchell doing all the hitting. He rushed the little San Francisco battler from the first crack of the gong and kept a steady stream of punches in his face during the initial round. Miller didn't seem to understand what was coming off and took all the punches with a sort of far-away look in his eye.

By the time of the second division Miller had visibly awakened and was right on deck to return any and all blows. He did most of the leading during this round and both went to the corners in a wrecked condition. In fact, at the end of every round the fighters were tired that they could hardly get to their places. This gives some idea of the way they were fighting.

The final round was nearly even with possibly a slight advantage for Ketchell. Both fighters gave the fight to Ketchell. It seemed a very fair decision although many were in favor of a draw.

Matchmaker Wadhams certainly selected a wonderful bunch of material for the programme last night. Every one of the bouts was good and most of them were so fierce that they didn't last the full route. The beautiful boxing of the Rudy and Norton was a lopsided affair, in which Norton died off in the early stages of the fight.

Rudy started in with his usual healthy swings, and his opponent soon discovered that he was in no condition to take many of them. Pardo, who was to have fought Pardo, failed to show and sent word that he was severely ill. So Norton was substituted.

Old Daddy O'Brien couldn't make the grade last night, being taken into camp by Gollinda. The ancient specimen wasn't in as good shape as he was a week ago, and Gollinda didn't have any visible trouble keeping on the mat. Daddy didn't have enough steam behind his blows. That seemed to be the main trouble.

On account of the dispatch with which many of the fighters were being put away, an extra bout was dashed up. Clark and Fritz did the honors, with the latter doing more than his share. The battle waged through three tough rounds, and then Clark gave up the ghost. He laid down on the mat, thereby indicating that he was a sick man and had had enough. He was really sick.

Early in the evening Watson and Finn mingled in a first-class exhibition. Finn is a young man with a very business-like manner. He is a Watson up after a couple of rounds and then knocked him out with a right hand.

The Bell-Main affair was short. In a moment of excitement Main took a swat at Bell and was taken prostrate on the floor and the referee gave the fight to Bell. Main was excited and evidently didn't mean to do any damage to his fall-out foe.

Atwood won a decision from Romeo.

AUTOMOBILES PAYING STATE LARGE TAX.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

SACRAMENTO, Nov. 28.—The State Motor Vehicle Department has taken in \$1,175,453 during the year 1916 to date, according to a report issued today, with automobiles paying \$2,041,666 of the tax. There are 125,718 automobiles operating in the State, and the highest license number out is in the 131,666 series.

For that reason Johnston came south yesterday to put in two days practicing with his partner.

In addition to the four families of the tournament assumes more than usual importance because the two greatest doubles teams in the United States are entered. Johnston and Griffin are the national champions and McLoughlin and Bundy the former holders of the title.

These two teams are absolutely in a class all by themselves when it comes to playing doubles. The only team in the world in recent years that could claim to be their superior was the Australian team of Wilding and Brookes. Leut. Wilding fell in the Dardanelles and is buried in the Gallipoli Peninsula. Brookes is fighting somewhere in France.

Johnston and Griffin have not played McLoughlin and Bundy since winning the title and the meeting of the two will be watched with keen interest by tennis enthusiasts all over the United States.

Griffin is now living in this city. For that reason Johnston came south yesterday to put in two days practicing with his partner.

A Tennis Situation.

PIPAL'S AGGIES WORK OUT IN B.V.D.'S WHEN SUITS MISS TRAIN.

POROSKITT and B.V.D. work out in the best that Joe Pipal's eminent representatives of the "back-to-the-land" movement could get yesterday on their arrival from Corvallis for the game with U.S.C.

A soulless railway octopus lost the trunks containing the Oregon Aggie uniforms and when the embryo non-purifiers reached Tournament Park in Pasadena yesterday afternoon, they were forced to practice in their Sunday clothes or not at all.

Rather than sacrifice their gorgeous sartorial creations, the farmers shed as much of them as the law allows and proceeded to work out in their shirt sleeves.

One lap up and down the field was sufficient cause for the removal of collars and neckwear. Before the second lap was well under way, Bev Anderson's shirt tail was flapping brazenly in the breeze and by the time two trips were over, the athletes called a halt and removed everything above the waist except the B.V.D.'s.

LOOKS OXY-LIKE.
The team lined up something like this yesterday in the workout at Tournament Park: Ends, Capt. Elmet and Hubbard; tackles, Brooke and McNeil; guards, Williams and Busch; center, Smith; quarter, Reardon; halfbacks, Conn and Anderson; fullback, Newman. Of these, Busch, Reardon, Conn and Anderson are freshmen.

LOOKS LIKE A REAL ELEVEN.
He is about five feet, eight inches tall and weighs 180 pounds in the nude. His pants were all filled with lard, and his shirt likewise seemed about to burst open from the muscles which stuck out all over him. If Mr. Busch is half the football player he looks to be, he is good.

TAKE A BATH.
The Aggies blew into town yesterday morning nineteen strong, accompanied by Head Coach Pipal, assistant Sammy McClung and Manager May. Upon their arrival the larders of the oil were herded onto a Pacific Electric car and chaperoned to Long Beach by McClung. While there, they sampled our ocean and

pronounced it a great success. The line seems to be rather heavy and exceedingly strong. The men look like fighters. In the back field, Conn and Anderson are open-field runners of terrific class, and Newman and Reardon, the other two members of the quartette, are of the stocky type likely to rip through the line.

Pipal's team will be very different from the Northwest squads we have seen in these parts before. With Oregon and the Aggie squad of a few years ago, the backs were the only thing that counted. Pipal's team will feature the sweeping end run, the forward pass, the Rugby pass and all the sensational stuff which Pipal has made a part of the American game.

The one drawback to Pipal's squad is its inexperience. He has from last year's team only Capt. Elmet, Newman, Selph and one or two others were subs on last year's team and the result has been that Pipal has taken what material he could dig up, most of it green, and has fashioned it into a football team.

LOOKS LIKE A REAL ELEVEN.
At the present time it looks a whole lot like a real eleven. No team could clean up Dietz's great Washington State eleven in the manner in which Pipal did that job this fall unless it had the stuff of which championship teams are made.

The man looked yesterday to be in splendid condition after their long trip. As nearly as could be guessed from the short workout yesterday, West, 152.

TO SAY THAT THE TEAM IS A ROUGH, tough aggregation is putting it mildly. Four of the men—the two ends and the two halves—are innocent and pugnacious in looks. Anybody who has seen Conn and Anderson in action, however, will admit that they are dangerous characters.

FORBIDDING.
The other members of the squad, however, have forbidding looks. Taking a shunt down the line from tackle to tackle and including the full-back and the quarter-back, they look like a line of battle.

Ray Selph, the former Los Angeles and Santa Ana boy, who plays center, is a meek and harmless-looking youth who weighs 200 pounds, is stripped, and who hides a bloodthirsty disposition behind a Douglas Fairbanks grin.

On the right side of the line are Brooke and Williams, respectively tackle and guard. Williams is a tall languid sort of person with a reach like Jess Willard. Brooke is large and lumpy with an arm like a blacksmith and a shape like a gorilla.

The left side of the line is even more interesting. The tackle position is filled by an elongated person by the name of McNeil, as Scotch as Harry Lauder. He is angular and bony, excessively dignified as becomes an upper classman and a true Scot. He kicks off for the team.

Left guard is filled by a peculiar-looking person named Busch, a freshman, and said to be the fastest man at getting through a line ever seen in the Northwest. He reminds you of the office safe in shape, being built along bungalow lines.

He is about five feet, eight inches tall and weighs about 180 in the nude. His pants were all filled with lard, and his shirt likewise seemed about to burst open from the muscles which stuck out all over him. If Mr. Busch is half the football player he looks to be, he is good.

TAKE A BATH.
The Aggies blew into town yesterday morning nineteen strong, accompanied by Head Coach Pipal, assistant Sammy McClung and Manager May. Upon their arrival the larders of the oil were herded onto a Pacific Electric car and chaperoned to Long Beach by McClung. While there, they sampled our ocean and

pronounced it a great success. The line seems to be rather heavy and exceedingly strong. The men look like fighters. In the back field, Conn and Anderson are open-field runners of terrific class, and Newman and Reardon, the other two members of the quartette, are of the stocky type likely to rip through the line.

Pipal's team will be very different from the Northwest squads we have seen in these parts before. With Oregon and the Aggie squad of a few years ago, the backs were the only thing that counted. Pipal's team will feature the sweeping end run, the forward pass, the Rugby pass and all the sensational stuff which Pipal has made a part of the American game.

The one drawback to Pipal's squad is its inexperience. He has from last year's team only Capt. Elmet, Newman, Selph and one or two others were subs on last year's team and the result has been that Pipal has taken what material he could dig up, most of it green, and has fashioned it into a football team.

LOOKS LIKE A REAL ELEVEN.
At the present time it looks a whole lot like a real eleven. No team could clean up Dietz's great Washington State eleven in the manner in which Pipal did that job this fall unless it had the stuff of which championship teams are made.

The man looked yesterday to be in splendid condition after their long trip. As nearly as could be guessed from the short workout yesterday, West, 152.

TO SAY THAT THE TEAM IS A ROUGH, tough aggregation is putting it mildly. Four of the men—the two ends and the two halves—are innocent and pugnacious in looks. Anybody who has seen Conn and Anderson in action, however, will admit that they are dangerous characters.

FORBIDDING.
The other members of the squad, however, have forbidding looks. Taking a shunt down the line from tackle to tackle and including the full-back and the quarter-back, they look like a line of battle.

Ray Selph, the former Los Angeles and Santa Ana boy, who plays center, is a meek and harmless-looking youth who weighs 200 pounds, is stripped, and who hides a bloodthirsty disposition behind a Douglas Fairbanks grin.

POVERTY LANE.
The day of thanksgiving is my friend. And here is a chance for the Lord: Matters but little the you spend. When the giver gives thanks, it can afford. The needy are with us, and the poor is high: And a pittance will leave the hunger and pain; And here's opportunity—just pass by— Just make a short journey to Poverty Lane.

You're prepared for the best, that there's no doubt; You've prospered amazingly, and you're about; You're cause to be thankful, your family about; And your household rejoices, with mirth and good cheer; But that is not true of the poor, that you find. Where want often comes, and again. So look up your brother, and don't mind. Just pause for a moment in Poverty Lane.

There are many in need, street of the poor; And you never meet one, nevertheless. They are all of them here, ask little more. Than the crumbs from your table, to relieve their distress. And this day of thanksgiving, mean much to you. A joy in well-do

SEWER PIPE IS BATTLE CAUSE.

They and Cement Forces will Lock Horns Today.

Letter Assail Law Excluding Their Home Product.

Former Defend Statute that Gives Them Field.

LAWYERS, engineers, manufacturers and business men will clash in argument tomorrow, when representatives of the California Glazed Cement Pipe Company appear before the Board of Public Works in an effort to prove its products are as well suited for the laying of sewers as is the vitrified clay pipe now made standard by law in this city. The cement pipe company's interests will be looked after by Capt. John D. Fredericks, former District Attorney, while Joseph Ford, once Capt. Fredericks' chief deputy in office, will champion the clay pipe makers' cause. Expert testimony also will be introduced by both sides.

The cement men aver they are "out to break the clay-pipe trust." The clay pipe manufacturers reply there is no "clay-pipe trust" and that, on the contrary, competition is so keen hereabouts that Los Angeles gets vitrified pipe at a price cheaper than any other large city in America. The cement company is declared to have new processes that overcome certain objections against cement sewer pipe that prevailed some years ago, when the city decided in favor of the exclusive use of vitrified clay pipe. The clay men retort that "cement is cement" and it cannot be made impervious to the destructive action of sewer gas.

OLD OR NEW?
The cement men declare they are seeking to introduce a brand new industry and the clay men that they are striving to protect an already established industry in which millions have been invested.

A communication setting forth the case of the clay products people was received yesterday by the Chamber of Commerce, Chamber of Commerce Industrial Commission, Merchants and Manufacturers' Association, Los Angeles Realty Board, Building Owners' Association, and the Municipal Board. The letter was signed by E. M. Durant, president Pacific Sewer Pipe Company; Howard Brown, president Los Angeles Pressed Brick Company; Walter R. Simons, president Simons Brick Company; James H. Hill, president Alberhill Brick and Clay Company; L. Lindsay, president Pacific Tile and Terra Cotta Company; G. D. Cadwalader, president Los Angeles Pressed Brick Company; R. G. Simons, president Standard Brick Company, and C. J. Kurbach, president E. & K. Brick Company.

"Cement sewers proved a failure in Los Angeles many years ago," says the letter. "The clay pipe, because of the acids contained in, and the gases generated by, the sewage attack the lime in the cement, causing it to disintegrate. Cement sewers on different streets in this city have either become worthless or are being replaced with vitrified pipe."

SIZE OF INDUSTRY.
"Vitrified pipe," the letter says in another place, "has been the standard sanitary sewer material for over 100 years, and is recognized as the most suitable material in the world. Today the vitrified-clay manufacturing industry of this city has an investment of over \$4,000,000. They employ nearly 1000 men. They have a payroll of nearly \$1,000,000 a year. They buy a great many thousands of dollars' worth of supplies in this city every year, and they pay heavy taxes."

"The cement men's argument is that the use of cement pipe for sanitary sewers will create a new industry. This new industry would consist of patent pipe-making machines, located in the street or on a vacant lot, and employing less than a dozen men. The profits would be in part to cement companies not located here, and not paying taxes here, and to patentees not living in this state, and the large plants now manufacturing vitrified sewer pipe would have to close down."

Communications giving the cement men's side of the case were received by various organizations several days ago, and have been extensively quoted.

Gratifying.
VOICE WINS PRAISE.
Blind Coloratura Soprano of This City Scores a Notable Success at Boston—Critics Write of Her Simple Manner that Convinces.

Friends of Lella Holterhoff, the blind coloratura soprano of Los Angeles, yesterday received word of the tremendous success she made at a recent recital at the Boston Music Hall, Mass. The recital was greatly enjoyed by a large audience and was very favorably reviewed by musical critics.

Miss Holterhoff was accompanied at the piano by Mary Wells Capewell. The programme included recitations by Mozart, Gluck, Brahms, Pech, Tchaikovsky, Brown, Bauer, Cyril Scott and Sproule. The critics declared the singer expressed the varied sentiments of these composers in a simple manner that carried conviction.

Test Case.
RESTRICTION HOLDS
Undertaker is Fined for Having an Establishment Outside of Zone Fixed by City Ordinance. Action is Brought to Level the Barrier.

W. A. Brown, an undertaker, was sentenced to pay a \$25 fine yesterday when convicted of having violated the city ordinance by maintaining an undertaking establishment beyond the zone prescribed for such institutions. His attorneys at once applied for a writ of habeas corpus, on the ground the arrest and conviction were illegal.

The purpose of the action is to test the validity of the city ordinance fixing the zone for the undertaking establishments. Other undertakers are interested in the fight, as several have made applications to establish places of business beyond the zone.

The Public Service.

At the Courthouse.
SCANT ATTIRE IS DIVORCE FEATURE.

HUSBAND WINS BY DETAILING WIFE'S ESCAPADES.

Spicy Story of Select Bathing Party at River Pool Entitles Court Records in Case Where Pair Disagreed—Woman also Alleged to Have Deceived Child.

When he learned that his wife, Gertrude Bates, had gone bathing in a river with three men and that she wore scant attire, George L. Bates, an employee of an electric corporation, remonstrated with her, he alleged in divorce proceedings before Judge Wood yesterday, which brought on a quarrel and Mrs. Bates tore up their marriage certificate.

In Sacramento, Mrs. Bates is alleged to have answered the call of the Bohemian set in San Francisco, and to have left her husband and child. This led, it is said, to her being placed on probation. Mrs. Bates endeavored, he claims, to get his wife to return and live with him for the sake of the child, but she refused to live up to the law she loved. The decree was granted.

NOT HERE LONG ENOUGH.
LOSERS ON TECHNICALITY.

Mrs. Grace Daily had sufficient grounds upon which to obtain a decree of divorce, but unfortunately she did not show Judge Wood that she had been a resident of this state a year at the time she filed suit against W. J. Daily. The latter, a former Seattle hotel man, grievously wounded his wife at a Los Angeles hotel, April 15, 1915, when she refused to give him money she had received through an inheritance, and was convicted and sentenced to the penitentiary for eight years for the shooting. He claimed it was an accident. Mrs. Daily will file a new suit.

GORDIAN KNOT.
JUDGE BEVERS IT.

Judge Hewitt yesterday adjusted the dispute between Carl Ray and H. W. Balchough, partners in the moving-picture business, by dissolving the partnership asked for by Mr. Ray in his suit against Mr. Balchough, but denying the application for a receivership, without prejudice, however.

Mr. Balchough filed a cross-complaint for an accounting, but the court allowed him \$250 and stated that no further accounting was necessary. Attorney Fred W. Morrison represented Mr. Ray in the litigation.

HURT BY AUTO.
WOMAN SUES DRIVER.

Alleging that she had sustained a fracture of the skull, three broken ribs, was paralyzed on the left side of her face and that the hearing in her left ear was destroyed, Miss Juliet N. Berger brought suit against Clarence E. Redding yesterday for \$10,000 damages as a result of being run down by Mr. Redding's automobile on the evening of June 8, last.

Miss Berger says she was attempting to get on board a trolley car at Seventh avenue and that Mr. Redding drove his car up to the curb and struck her. Further, that he was driving at an excessive rate and in a reckless manner.

INS AND OUTS.
ABOUT THE COURTS.

PERFORMED PROMISE. Judge Shenk yesterday decided that Valentine Arnold Vogt, nephew of Mrs. Sarah Arnold, to whom she had bequeathed property worth \$4500, in consideration that he should take care of her, had done all he could for her up to the time of her death. Hence, he gave judgment in favor of Mrs. Alice Bertha Vogt, administratrix of Mr. Vogt's estate in the suit brought by Mrs. Arnold to vest the title to the property in her name, on the ground that there was no consideration.

HEIR SEEKS GUARDIAN. Because he owns real estate in Atchafal, and first mortgages on Chicago property, George A. Sherwood, 15 Mrs. M. made application in the Probate Court yesterday through his mother, Mrs. Vera G. Sherwood, to have the Los Angeles Trust and Savings Bank appointed guardian of his estate. The personal property is valued at \$64,574 and the real property at \$40,000. It is stated that it is his intention to have the personal property transferred to California.

YOUNG WOMEN MAY AVOID PAIN

Need Only Trust to Lydia E. Pinkham's Vegetable Compound, says Mrs. Kurtzweg.

Buffalo, N.Y.—"My daughter, whose picture is herewith, was much troubled with pains in her back and sides every month and they would sometimes be so bad that it would seem like acute inflammation of some organ. She read your advertisement in the newspapers and tried Lydia E. Pinkham's Vegetable Compound. She praises it highly as she has been relieved of all these pains by its use. All mothers should know of this remedy, and all young girls who suffer should try it."—Mrs. MATILDA KURTZWEG, 529 High St., Buffalo, N.Y.

Young women who are troubled with painful or irregular periods, backache, headache, dragging pains, nervousness, fainting spells or indigestion, should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

If you know of any young woman who is sick and needs help, please write to the Lydia E. Pinkham Medicine Co., Lynn, Mass. Only women will receive her letter, and it will be held in strictest confidence.

At the City Hall.
PROVIDE FUNDS TO RETAIN SIXTY MEN.

GIVE STREET REPAIR WORK TO JOBLESS TEAMSTERS.

Defer Action on New Rule Compelling Jitney Bus Route Signs. Police Commission Investigating Social Clubs—May Demand Initiative on Fish Market Ordinance.

In Committee of the Whole yesterday, the Council decided to appropriate \$2500 a month for three months to give employment to the sixty or sixty teamsters who were to have been laid off tomorrow by the Board of Public Works because of lack of funds. The men will be employed as laborers and will have to turn their teams out to pasture.

Councilman Brain said there is plenty of work for the men and this is the best way of taking care of them. He asserted many citizens are already complaining about the condition of the streets, which are not cared for since the appropriation was cut by the Budget Committee to meet the demand for a lower tax rate.

ACTION DEFERRED.
JITNEY BUS SIGNS.

At the request of the Motor Bus Union, the Board of Public Works yesterday decided to defer until January 1, enforcing its new rule that route signs must be painted on the windshields and that no advertisements be carried thereon.

It was asserted at least 500 drivers are making about \$2 a month, "in money or kind," for signs advertising on the back of their windshields moving picture theaters and other establishments.

ARE UNDER FIRE.
INVESTIGATE SOCIAL CLUBS.

The directors of the Colored Working Men's Social Club, No. 1529 E. East Ninth street, were yesterday cited to appear before the Police Commission next Tuesday at 10:30 o'clock a.m. to answer a charge preferred by Chief Butler of improper conduct in permitting persons other than members the privileges of the club.

Other social clubs have been under investigation and it is the announced determination of the commission to make these clubs live up to the regulations.

CHANGES NEEDED IN LIQUOR ORDINANCE.

The Police Commission decided yesterday to ask the Council to amend the liquor ordinance to permit wineries to sell in quantities not less than thirty ounces, instead of thirty-two ounces. This is because much liquor is sold in "short-quart" bottles of the smaller size.

Another amendment sought is to place, malt bottling establishments under the jurisdiction of the Police Commission.

MUNICIPAL FISH.
WANT CITY FISH MARKET.

Urging the City Council pass an ordinance to submit to the people the question of establishing a municipal fish market, the United Improvement Federation will circulate petitions for an initiative ordinance. The Council was informed yesterday by Secretary George W. Graydon. The association asserts a large quantity of fish is being destroyed every week in order to keep up the price. It states that fishermen are paid 14 cents a pound for fish which is retailed at from 18 cents to 25 cents per pound.

FOR LESS SPEED.
AN ACCIDENT STRIP.

Assistant City Attorney Robertson is preparing for the Safety Committee an ordinance designed to stop speeding between the Broadway tunnel and the Buena Vista bridge over the Los Angeles River. That portion of North Broadway is at present within the twenty-mile zone, but the committee will ask the Council to put it in the twelve-mile zone.

Councilman Conwell said yesterday there have been seventy-four major accidents in that section during the past year and several fatalities. He said many automobiles travel along the street at thirty miles an hour, and the Safety Committee wishes to lessen the danger.

Hold It Responsible.
The Council yesterday instructed City Attorney Stephens to prepare a notice to be served on the East Side Rock and Gravel Company that it will be held responsible for all damage caused to the Avenue 20 bridge or streets adjacent by reason of its excavating in the Arroyo Seco.

Living's High Cost.
Mayor Woodman believes the high cost of living ought to be investigated, but he said yesterday he has not appointed a commission for this purpose and has no programs in mind.

Badges Called In.
Chief of Police Butler was instructed by the Police Commission yesterday to call in all the old police badges and arrange for a new badge. Several hundred badges have been given out in recent years.

Ornamental Lighting.
John L. Wilson was yesterday awarded by the Board of Public Works the contract for ornamental lighting of West Adams street between Grand avenue and Figueroa street, his bid being \$3565. Proceedings are to be started for the ornamental lighting of Genesee avenue between Sunset boulevard and Fountain avenue.

Minority Park.
The park department is preparing to start on the improvement of the small park at Avenue 37, Bethel street, Marmon way and Dayton avenue, and yesterday asked the Board of Public Works to define the grade on the Bethel street and Marmon way sides. The City Engineer was instructed to take the necessary steps.

City Hall Notes.
The Council adopted an ordinance changing the name of Harvard avenue from Seventy-ninth street to Manchester avenue to Harvard boulevard.

An ordinance was adopted abandoning the proceedings for the improvement of Vermont avenue from Melrose to Temple street.

Protests against the opening of Venice boulevard from Beechwood avenue to Sixth street were referred to the City Engineer for checking of frontage.

The purchasing agent was instructed to advertise for bids for fire engine house site in the vicinity of Topaz street and Huntington drive.

Funds were ordered transferred to the health commissioner for the purpose of installing a clinic in the Temple block and repairing fences around the quarantine station.

The sum of \$4517.98 was transferred to the credit of the park department to complete the field house at Griffith Park.
